Comments	<input type="text" value="We are extremely concerned about this application, as it would appear, in essence, to be a re-submission of an application which has already been refused both by Cherwell District Council, and by the Planning Inspector. The company name may be different, but the objective is the same - to construct an unsightly telecoms mast in a prominent position in a rural area; the minor changes from the first application do not in any way make this second application more acceptable. A mast of this height would be extremely conspicuous and unsightly when one is entering or leaving the southern end of Kirtlington on the A4095, and for residents living nearby it would be an eyesore. We should all be striving to preserve what we can of rural areas, not to spoil them with ugly structures such as this proposed mast. We would like to register our very strong objection to this proposal, and to ask the Planning Authorities to turn it down."/>
