Comments	<p>I cannot believe that this Company is trying to get this through again by applying through another company! This is a conservation area!!! It would be completely ridiculous to allow a 15 m phone mast in a conservation area. It would make a mockery of everybody else's efforts to keep the area beautiful. People have spent fortunes carefully matching their stone to existing stone, carefully matching new rooves to existing slate rooves... All for the benefit of the road as a whole. That's the whole point of having a conservation area: they "exist to manage and protect the special architectural and historic interest of a place." By visiting the area you will realise that it would be foolhardy to place this mast in such an area of this beautiful village.</p>
