<b>Comments</b>	<p>I'm sending in this OBJECTION regarding Vistry planning application: having lived in Hanwell for 26 yrs and seeing our beautiful village being swallowed to the point it will no longer be a village. Surely the points below are arguments in themselves as to WHY the planning should be refused:</p> <ul style="list-style-type: none"><li>. We already have 5.4 year housing supply until 2027 so this development is not needed.</li><li>. Harm an area of high landscape value.</li><li>. Have a negative impact on setting of the conservation area and heritage assets.</li><li>. Results in the coalescence of the Banbury urban area and Hanwell village, contrary to adopted planning policies.</li><li>. CDC has assessed and it was "not suitable " for development.</li><li>. Erode an important gap of undeveloped land that is protected under existing planning policy.</li><li>. Cause loss of an important prominent landscape feature that adds to the character and identity of open countryside north of Banbury.</li><li>. Have adverse impacts on the environment and biodiversity.</li><li>. Cause loss of high grade farmland crucial for sustainable farming and future security.</li><li>. Cause traffic congestion with safety problems.</li><li>. The loss of green space and all its views.</li><li>. Putting a strain on our existing local infrastructure.</li></ul> <p>Give us the space to breath and not suffocate us with more developments.</p>
