Comments	<p>I wish to object to the planned development. I'm objecting on the grounds that it will harm this area more than it would benefit.</p> <p>From an environmental and physical standpoint, such a development will have negative impacts due to:</p> <ul style="list-style-type: none">i) adversely affect biodiversity,ii) loss of green spaces,iii) loss of important, high-grade farmland which is needed for sustainable farming and food security; andiv) exacerbate and contribute to climate change due to a loss of rural land and increased traffic congestion <p>From a policy standpoint, such an application should be rejected on the grounds of:</p> <ul style="list-style-type: none">i) contrary to Cherwell Local Plan and related spatial planning policy,ii) the area is a protected conservation area,iii) not included in the current development plan, nor a proposed new plan,iv) the site has been assessed as not suitable for developmentv) area is protected under existing planning policies. <p>As someone who grew up in this beautiful area, I urge you to reconsider and not allow such developments to occur. Children are growing up without beautiful, green spaces and the chance to see the world as it naturally is. Do not continue this detrimental trend and take more from this generation and others to come.</p> <p>More housing is not the issue for an area such as this and would only result in strains on local infrastructure not built to support such a development.</p> <p>Rural land is disappearing and not for sufficient benefits. Please do not take this amazing green space away.</p>
