Comments	<input type="text" value="This application will result in overdevelopment of the area, it is planned for fields which have been in use for growing much needed food for our ever increasing population.

It will also destroy the habitats for the wildlife in the area which include rabbits, badgers, foxes, deer, red kites, buzzards and bats, all of which inhabit the verges of the fields.

I also note that there was an attempt to destroy a large badger set in one of the wooded verges recently. These are protected and any disturbance cannot be done without a licence."/>
