<b>Comments</b>	<input type="text" value="Cropredy surgery is currently operating at full capacity, as are all other primary and secondary care provisions within banbury and the surrounding area. This location is on the border of our area and we could not cope with the potential influx of patients. Any patient moving from our catchment to this location would remain registered and this would negatively impact our ability to accommodate additional patients within our primary catchment area.&lt;br/&gt;&lt;br/&gt;Alongside other stretched infrastructure including roads and transport there is no justification for allowing a development of this magnitude that is not in accordance with the local plan."/>
