Comments	<input type="text" value="We do not need more housing developments!! This earth if for all thing things not just humans, where are the animals gonna go?? One day in about 100 years from now there will be not much countryside left, then we will realise the mistake we have made on this earth. There wouldn't be enough trees and plants to give off heathy oxygen, there wouldn't be enough farm land for farmers to grow there crops. It's important that we leave the countryside alone because it's the natural beauty of planet earth and we humans are not taking care of it. Have you seen the litter we're starting to get in our countryside since we had the Hanwell chase built next to the village??"/> <input type="text" value="This earth is not just for greedy humans."/>
