Comments	<input type="text" value="Many local villages within Oxfordshire are being threatened by permitted developments on fringes on parish boundaries. Infractures to support these huge developments in village communities are not being factored into purposals fully and not being implemented before permitted building works going ahead. Village utility Infractures are not being improved to withstand new development affecting original local residents. We all understand the need for more affordable housing in our growing population but needs to be proportionate and enhance, not destroy the environment"/>
