Comments	<input type="text" value="I wish to object strongly to this planing application as it would be contrary to the adopted Cherwell Local Plan 2011-2031. It would adversely affect the Conservation Areas of both Hanwell and Horley joining it up in ribbon development to the Banbury urban area. Harm would inevitably follow to the heritage of this ironstone village with its lovely church and the observatory therein. Not only that but it has already been assessed by CDC as clearly 'not suitable for development' . The buffer of land between the village and Hanwell Fields development is already small and needs to be maintained and protected. The local environment and biodiversity would be severely affected and result in the loss of good grade farmland which is so important now that we need to grow more and more local food. This proposal is inappropriate as local infrastructure is already under pressure. Green space and countryside is so important for people's health and welfare and once lost it can never be restored. I hope that the application of this proposal will be turned down."/>
