Address	<input type="text" value="11 De La Warr End,Banbury,OX16 1HD"/>
Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="I strongly object to the proposal to develop on the field opposite my property. One of the main reasons for purchasing my property was that I was able to walk out on open fields almost directly in front of my home. Additionally I wanted peace and quiet hence choosing to live in a cul de sac. I do not want years worth of noise continually disrupting my time at home and impacting my quality of life. Additionally we experience enough dust once a year when the combine harvests the field. The air pollution as a result of years of development on that field again will mean I cannot have my windows open and enjoy my own home. It is simply unacceptable. As a teacher of Geography I fully accept that we have a growing population that places increased pressure on green spaces. Should we not then be considering redeveloping brownfield land as opposed to eating up all of our green areas. The Banbury Masterplan clearly specifies the need to regenerate desirable land alongside the canal, is this surely not where you should be putting your focus for housing developments? Central locations, close to transport links and facilities reducing the need for a car? We should be retaining our green spaces not destroying them."/>
