<b>Comments</b>	<input type="text" value="This proposal would create a serious noise pollution at unacceptable levels for my apartment directly across the road. In addition to extremely loud noise, all day every day, it would create smell and dust pollution from the cars being driven on the track, and hugely increase the traffic flows and associated congestion and risk on a fairly narrow but already busy road. The risk of accidents to pedestrians would increase dramatically; please bear in mind that this is close to the care home, so elderly people are using the road. There are also bus users who would be affected. The location is simply unsuitable for this kind of noisy, polluting activity. It is directly across the road from residential areas that will all be blighted if it is allowed to go ahead."/>
