Comments	<p>I object to this planning application. Our main concern is noise, due to the proximity of this proposed racing track to residential buildings. If you look on the Bicester Motion homepage you will see a photo of a child with fingers in ears blocking the noise, which says it all. Increasing activity directly correlates to increased noise.</p> <p>Many families quietly enjoy living in the adjacent communities, and will potentially have their evenings and/or weekends disrupted due to this. Importantly families with very young children may have routines completely interrupted due to unpredicted times of noise. The A4421 is already a very busy thoroughfare and this will increase traffic substantially. For low-noise events there would need to be some proper traffic management in place.</p> <p>To be proactive I would suggest, if it hasn't been considered already, to plan this race track further away from residential buildings.</p>
