Type of Comment	<input type="text" value="Support"/>
Type	<input type="text" value="neighbour"/>
Comments	<p>I own a property on the Garden Quarter. It is noted that this is a retrospective application to normalise activities that have already been established for some time. In light of this, it would seem churlish to raise any objection purely due to the fact that this application is the first time this matter has come to peoples attention. It has clearly not been of concern in the past. It should be recognised that the operators on this site have improved and preserved the historic environment, provided employment and enjoyment over their tenure in a highly sensitive and professional manner, without which the site would have degraded over time and become an eyesore. Such care should be recognised and applauded.</p> <p>With this in mind I fully support the application to normalise the activities.</p>
