Dear Sir/Madam,

As part of the Sibford Action Group, I strongly object to the latest, and current planning application(23/01316/F).

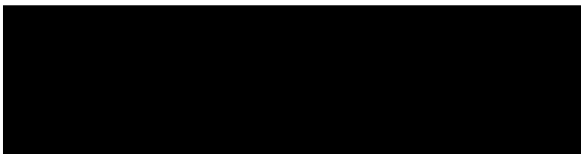

I object to this opportunistic proposal on the grounds set out in the submission made to CDC by Chadwick Town Planning already posted against this application. I have not attached a further copy,

I also objected to the two previous similar applications on this field, the latest being only in March of this year, at which time the appeals Inspector commented "I conclude that this proposal would conflict with the development plan, and there are no material considerations to outweigh that finding".

Those facts still stand today, and so for the same reasons that you rejected the proposal before, you should just reject the proposal again, otherwise it would make a mockery of the appeals inspector's decision.

The proposal either has to be rejected out of hand or called into the full planning committee because of the continued high level of objections for local residents.

Yours sincerely,
