Subject: 23/01339/Q56

This department has the following response to this application as presented:

Noise: No comments

Contaminated Land: Due to the sensitive nature of the development (residential) and the previous, agricultural use of the land, the full contaminated land conditions should be applied.

Air Quality: No comments

Odour: No comments

Light: No comments

If you wish to deviate from the suggested conditions then this should be discussed with the officer making these comments to ensure the meaning of the condition remains and that the condition is enforceable and reasonable.
