Refer to drawing P21-2662\_103 for Implementation and Maintenance Guidelines

NOTES

- All trees, feature shrubs, climbers, shrubs and hedgerows to be planted in accordance with the implementation and maintenance guidelines. All landscape proposals must be referred to by the Structural Engineer during foundation design.
- Shrub and hedgerow species, size or quantity should be altered without the approval from the Landscape Architect.
- Individual shrubs/climbers/grass species to be planted in groups of 3-9.
- Individual species within ornamental shrub mixes to be planted in groups of 5-7.
- Lower growing species within ornamental shrub mixes to be planted in the front of the shrub bed (as indicated).
- Individual bulb species to alternate every 2 linear metres.
- Native hedgerow shrubs to be supplied on bare-root stock unless stated.
- Hedgerow shrubs to be planted within a 80cm wide bed and mulched.
- Any native hedgerow shrubs to be planted on a double diagonal row, 250mm apart with no less than 8 per linear metre within a 30cm wide bed in accordance with implementation and maintenance guidelines. Any hedgerow stock to have a straight crown and be terminated with evenly spread and balanced lateral growth the full length of the stem. If feathered hedgerow stock is proposed, shrubs shall be attached to a double line support line for feathered stock at 1m high and one for transparent stock at 60cm high fence using an approved clip tie and cut back to 2cm in height at time of planting.
- Seed marginal planting to be specified from certified local provenance plant stock.
- Soiling operations to be carried out in accordance with the implementation and maintenance guidelines.
- All planting to be in accordance with the implementation and maintenance guidelines.
- No species, variety, size or position to be amended without the Landscape Architect's prior approval.
- Beliefs trees are planted, the Landscape Contractor shall ascertain the location of drains from the site manager, and shall if necessary make minor adjustments to tree positions to ensure that they are planted at least 1.5m from drains. They should however be planted closer to houses/garages than is shown on the drawings, and if shown located in shrub beds, the shade of the latter should be necessary to accommodate the revised tree position.
- All planting must be matched in accordance with the implementation and maintenance guidelines.
- If planting is required outside the October - March season, bare root shrubs will be replaced by 3L pot grown plants, and trees will be replaced by a containerised equivalent to be approved by the project landscape architect.
