Comments	<input type="text" value="As a resident living relatively close to this site please can I express support for this application.

It's seems an opportunity to build on CDC's past commendable work in providing much needed residential units on the adjacent Calthorpe House site.

The existing car park often appears underused and is host to antisocial behaviour in the evening.

The Calthorpe House flats include swift boxes and I would hope a similar requirement is placed on this site.

Final comment is that a decent proportion of affordable housing (rent & shared ownership) should be secured."/>
