

Car Sharing

Sharing a trip with a friend, neighbour or work colleagues is a good way to help out with the cost of fuel, parking and the stress of driving. If you don't know anyone then why not try a Car Sharing scheme

You can enter your journey details into liftshare.com to check to see if there are any suitable matches for your car share. Liftshare is free to join and has a wide range of community groups in different locations

Electric cars

If you are using an electric car already, then fantastic! If not, you may want to consider the benefits of an electric car

- Low/carbon emissions which reduces our carbon footprint
- Cheaper running costs with no car tax or fuel duty
- Very quiet engine, reducing the stress of driving
- Digital support for owners

Cost Savings
The benefits of car sharing are varied and begin to add up quickly. Besides the obvious environmental benefits, there are also fantastic financial savings that can be made

Did you Know?
The average commute to work is 10 miles (one way) and by sharing the cost of that journey everyday could save you up to £1,300 per year. The more miles you commute the more money you can save by car sharing

One Car Instead of two?

One of the best ways to cut car use and cut your costs is to reduce the number of cars you own. Could you make small changes, so you can reduce the number of cars you need

Remember a basic new car will cost the average household over £4,000 per year which is £333 per month or £77 per week. What could you do with £77 per week

Taxi Whilst there are currently no Taxi providers within Bodicote there is a good number in Banbury and the surrounding area which can be found online

Home Delivery Service

Online shopping is a great way to have your groceries and other items delivered without having to make the trip. Major supermarkets and other online retailers offer this service and it can be a good way to monitor the cost of shopping from the comfort of your own home
