Subject: Heyford Park - application 23/02827/F

CAUTION: This email originated from outside of the Council. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Good afternoon

Further to our earlier submission of comments on this application, we wish to make a further comment, if there is still time for you to take it into account.

We note that the application for car processing includes the following: "Erection of portable lighting/ CCTV gantries at 20 metre intervals. These would be between 2.4 and 2.6 metres in height".

The applicants' Planning Statement incorrectly states the following:

*5.17 Although the MCNP does not include dedicated policies relating to Heyford Park (and a number of its policies specifically exclude development at Heyford Park) it does include the following topic specific policy:
PD4 – Protection of Important Views and Vistas; RAF Upper Heyford 2006: Para 6.4 and Figs 9, 10 and 11*

There are in fact two policies in the Mid-Cherwell Neighbourhood Plan that are specific to Heyford Park, although they are not material to this application. There is however another policy, which the applicants fail to recognise - namely policy PD6: Control of Light Pollution, which is highly relevant to the proposals.

Could you kindly confirm that you will reference this policy and its requirements in your report and recommendations on this application. If permission is to be granted, we would expect to see compliance with our policy as a condition of approval.

We would be very grateful also for confirmation of receipt of this email.

Regards

Martin Lipson
