

House type 'Woodcote'
Plt 43

REM approved

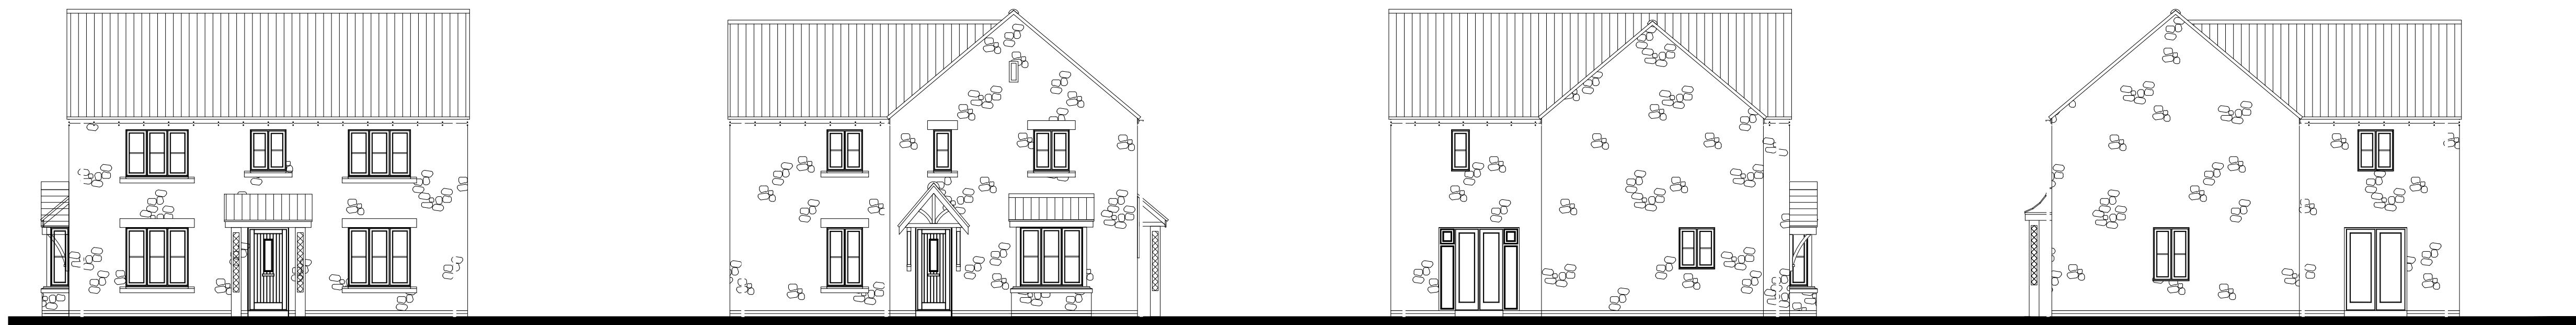

Technical design stage adjustment

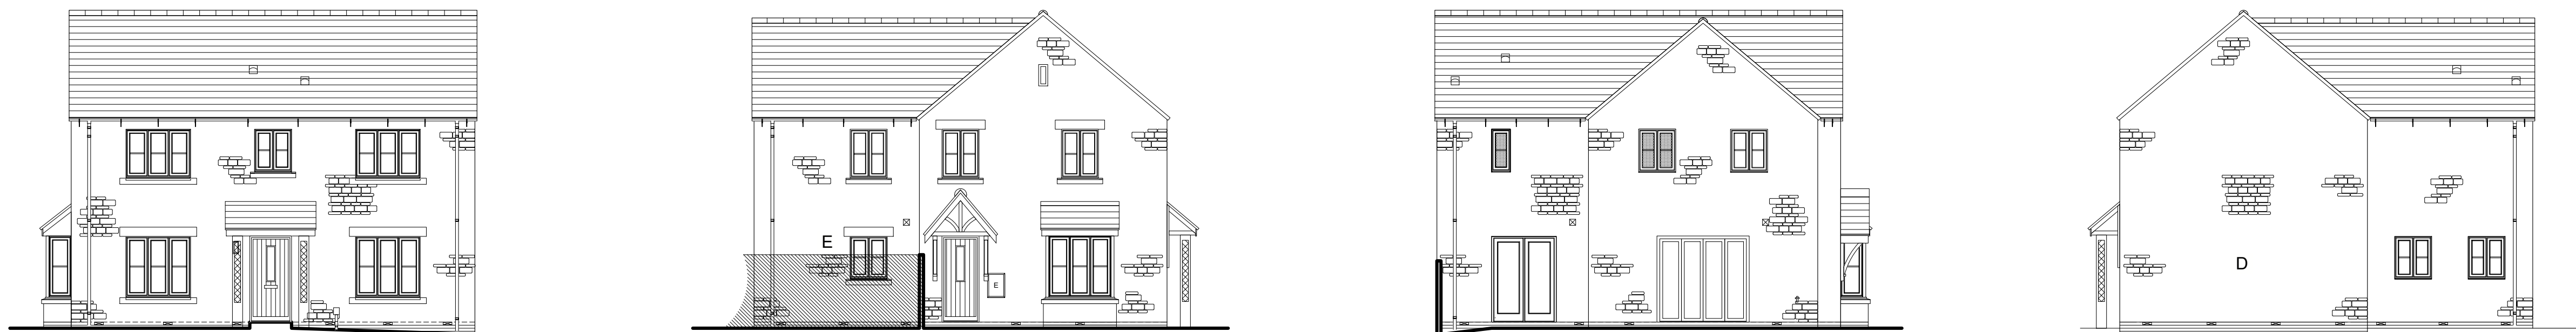

Notes:
 - window 'C' enlarged to 1500h because it faces onto the public realm
 - other windows added/omitted/enlarged due to Part O audit, enable fire escape and to mimic Plt 34 which also has a different kitchen layout due to the 1500 high window 'C' facing the public realm.
 - window 'D' reduced to 1200h because it's screened from the public realm by the boundary wall

House type 'Woodcote'
Plt 46

REM approved

Technical design stage adjustment

Notes:
 - window 'D' omitted because it would face the adjoining neighbour's parking
 - window 'E' reduced to 1200h because it's screened from the public realm by the boundary wall
 - other windows added/omitted/enlarged to reflect Part O audit, standard layout adjustments and enable fire escape
