| Comments | <input type="text" value="I have concerns about the construction of a fixed agricultural barn, as this would distract from the meadows natural beauty. I am also concerned that this will be the start of further developments possibly culminating in domestic housing. I understand the need to shelter animals but this can and has been achieved using temporary wooden stables. Also with the size of the meadow, i cannot foresee what large machinery would be required to be used and stored there."/> |
