Comments	<input type="text" value="The proposed development has not changed greatly from the previous. The road layout will mean additional traffic, pollution and holdups at the exit from the Daventry Road on the Motorway junction. Ancient ridge and furrow farmland will be destroyed, when it should be preserved. The existing roads in Banbury can not cope if there is an accident on the M40, the roads in the town need to be sorted before any speculative development. The previous plans for a service station on the opposite side of the Daventry was not accepted and I believe the development at Huscote Farm will be beneficial for Banbury and the approach roads will become less inviting and will be a blot on the landscape."/>
