Comments	<input type="text" value="The plan to build more buildings in this area is utter madness. The roundabout over the M40 is already a nightmare, not only during peak times. Where is the traffic that this will create supposed to go. The effect of the units already built has not yet been felt by those of us that have to use the A361 to get to Banbury as they are STILL empty (how long have they been built?!?!?!). This will just cause a bigger bottle neck than there already is! Unless there is an intention to build a second exit off of the M40 then this application is not logical. What happened to the NO BUILD north of the motorway? Wasn't the cattle market application turned down because of the NO BUILD. Strongly, strongly object."/>
