Comments	<input type="text" value="I object to this entirely.
Banbury has had over last 10 years massive development of green field land for various commercial planning operations. The entire green field space the other side of the motorway on the site around the old cattle market has now gone to commercial planning and it has been built. There is no green left.
Directly adjacent to this proposal is development happening right now between motorway and A361. All completed buildings are empty.
This is the only part of the M40 interchange roundabout that remains green, the rest has gone for ever. 10 years ago, the interchange was green....
This has to stop. The infrastructure is at breaking point now, this will tip it over the edge"/>
