Comments	<input type="text" value="We would like to object to this application as in our opinion the applicant has failed to provide sufficient information to fully determine the ecological impacts, including the extent to which the proposed development would impact upon priority habitat types, protected / notable species which are reasonably likely to be present and affected by the development, we do not think the proposal to be environmentally sustainable. The development conflicts with the principles of the Cherwell Planning Strategy and surely the Council cannot conclude beyond reasonable scientific doubt that the proposal would not adversely impact the features of the area."/>
