<b>Comments</b>	<input type="text" value="The proposed site is appalling - allowing this development will allow the over development of all farmland and countryside in that entire area. This leads once again to a loss of biodiversity and an increase in traffic and pollution. Banbury already does not have school or health infrastructures with capacity for any new workforce or people moving into the area. We already have a lot of brown sites in Banbury town centre which could easily be redeveloped including the land on which Kraft sits so there is no good reason to destroy any more countryside."/>
