<b>Comments</b>	<input type="text" value="First and foremost this area of historical green-space / farmland needs to be protected. Secondly there is already excessive pressure on key transport routes . For example A422, A361 and the M40 junction. I also note that that there are other facilities in the area that have remained empty for several years. To destroy precious green space for facilities which there is no demonstrable demand is not acceptable. Furthermore given a very similar request was already rejected and there are no substantive changes, I would ask the council to dismiss this out of hand as exploring it further is not good use of tax payers money. If there are further measures that could be use to block such vexatious companies / requests avenues should be explored to prevent this developer wasting tax payers money."/>
