Comments	<input type="text" value="This proposal should be rejected as it would be detrimental to the local environment, add to the existing traffic congestion, offers no local employment and also no commercial value to Banbury residents.

There are already existing vacant warehouses within the same area as this proposal, which have been vacant for 2+ years. This indicates there is no commercial demand. The jobs offered in such warehouses are poor quality, low remuneration. Such businesses have to recruit in from outside of Banbury. This does not offer Banbury quality employment or education of residents.

The land is identified as an area of environmental value to both existing wildlife and accessible to local residents. This proposal would significant damage this important facility for the future generations of Banbury."/>
