Type of Comment	<input type="text" value="Glen Meadow Farmhouse, Wardington Road, Wardington, Banbury, OX17 2JU"/>
Type	<input type="text" value="Objection"/>
Comments	<input type="text" value="neighbour"/>
Received Date	<input type="text" value="I would like to object in the strongest terms possible to this resubmitted application for commercial development. The warehouses that were granted permission in similar holiday application timescales built on the other side of the road are still empty and not in use. The third of which has been built without any occupancy of the first two!!! To build even more of the same on such a grand scale is totally unsustainable development for this area. The traffic is already congested around this motorway junction and the placement of a mini roundabout on the A361 road coming off the motorway heading towards Daventry is a serious danger to motorists especially with large Lorries entering and using the exit. This is a dangerous junction as it is and this will cause more accidents. Building on this land also increases flood risk over the surrounding area with increased air pollution. The loss of wildlife has to be one of your major considerations not to allow this massive development to go ahead especially at a time when authorities up and down the country are trying to reduce Carbon Monoxide emissions. Please do not cause irreversible damage to the area and the health of your community. Thank you for your consideration please reject this plan once and for all. This is now the third or fourth attempt at developing this land by the owners for nothing more than monetary gain on their part."/>
