<b>Comments</b>	<input type="text" value="This proposed development takes no account of the burden on the motorway roundabout traffic, which it will increase several fold. Due consideration should be given to the roundabout capacity, particularly during peak periods. Have independent surveys been conducted to assess the current and projected volume of traffic in this already congested area? Other areas or access routes should be considered or created, at the developers cost, to minimise the chaos that will ensue, given the current planning application."/>
