Comments	<input type="text" value="The village of Farthinghoe is on the A422 close to the proposed development site. We have long suffered from the high levels of noise, danger, and pollution caused by traffic on the A422, much of it in the form of HGV's. We have recently been informed that a bypass is not possible for the foreseeable future, and that other traffic mitigation methods will be investigated.
At a time when we are seeking to reduce traffic flows, the last thing we need is the increase in HGV traffic through our village which the proposed development will inevitably bring. With the recent impact of HS2, and threats from solar and wind farms, our rural village deserves some respite"/>
