Comments	<input type="text" value="Yet more unnecessary warehousing which won't even create many real jobs (plenty of empty units already around the junction, plus several being built on the other side of the A361). Creating an utter eyesore and blight on the area - destroying yet more green space and habitats for plants and wildlife, whilst increasing pollution. Climbing the escarpment adds even more insult to the injury given the huge range that the site would then be visible for. Added to which, J11 is already overloaded with traffic and the whole area grinds to a halt if there is even a slight problem/accident on the M40 or link roads. This is a completely unacceptable proposal and I strongly object to the constant ripping up and destruction of our countryside. I also object to this application being brought forward again having already been rejected."/>
