Comments	<input type="text" value="I strongly object to the proposed development.
- The M40 J11 roundabout is already congested. More warehouses = more traffic, more circulation problems, more pollution
- Local villages already overloaded with heavy-goods vehicles would be severely affected by the additional traffic on roads servicing the proposed warehouses, in particular at Farthinghoe, where the currently inadequate A422 begs for a bypass, and at the pinch point of which two large vehicles cannot pass without mounting the pavement
- Existing warehouses at J11 remain unlet - why would we need more?
- We need to maintain existing farmland for self-sufficiency, given the precarious nature of the world's food supply
- Solar panels do not appear to be included on the planned buildings and should be mandatory
- The fact that this application appears to be a re-hash of one that had already caused an outcry, and been withdrawn before it could be rejected, implies an arrogance and disregard for local opinion on the part of those who would profit financially from the project"/>
