I believe that there will be an adverse ecological impact due to the loss of grazing pasture, established trees, hedgerow and wildlife habitat. lost forever.
If the development on the other side of road is anything to go by the visual impact will be a further blot on the landscape for Banbury.
The A361 and M40 J11 roundabout are already congested, the considerable increase in traffic will cause congestion either side of the roundabout and will likely back up onto the M40. This congestion will in turn have a detrimental effect on air quality.
This development was previously opposed by the council, is there actually a need for additional warehousing?. The units opposite have not yet been let/used as far as I am aware.
The fact that the environmental statement summary states that " visual=""/> Surely this Environmental Statement should not be taken seriously by the council."/>
