Comments	<input type="text" value="Given that that planning was given to build the white elephants on the A361 to the east of th M40 it would appear that a decision has probably already been made. Can anyone explain why more grey boxes are needed in this area as the infrastructure as it stands cannot support the eventual increase in traffic. Add to the fact that more green field sites being taken for pointless warehousing. Initially an undertaking was given that there would be no expansion to the east of the A361 but obviously this was thrown in the bin.No doubt money will talk in the end and the planning will be approved to the further detriment of the area."/>
