Comments	<input type="text" value="There does not appear to any substantial change from the application made twelve months ago, the proposed development will still be an eyesore of which Banbury already has too many. The development will create a significant impact to the motorway junction which is unable to withstand the HGV traffic as is, witness the constant deep ruts and potholes on the eastern bridge. Air quality and noise levels will not be improved. Banbury has a severe lack of green spaces and expanding the spread of metal sheds simply reduces the views people can enjoy with the associated bit by bit reduction in quality of life and mental health."/>
