<b>Comments</b>	<input type="text" value="It is not in the local plan and plenty of other units have already been built and remain empty. The units which are in use are not providing job opportunities for local people as buses are bringing in workers from other areas. The growth of the industrial site has already led to a massive increase in traffic and the local roads/motorway junctions cannot cope with the additional lorries and cars. This can be seen by the number of potholes and traffic jams. The site is also of historical interest with an example of an unusual ridge and furrow system. It would also destroy the habitat of many plants and animals. It is sad to see this stealthy attack on the countryside."/>
