Type of Comment Objection

Type neighbour

Comments There is NO need for additional warehousing near Junction 11 of the M40. It would appear that there are already unused facilities and the unfinished units adjacent to the M40 confirm my decision.
Most importantly the use of agricultural land in particular ancient ridge and furrow should be protected.
I can see several 'ponds' have been identified on the plan however putting further acres of low level land under tarmac will add to the flood risk. The M40 junction is already busy and the A422 has enough congestion in Farthinghoe without the addition of more huge lorries adding to the turmoil in Farthinghoe travelling too or from another depot.
The wildlife in the area has seen enough devastation due to HS2. It is time to stop allowing corporations to bulldoze every strip of land they can get their hands on for personal gain without any consideration for the local community or the state of the world in general.
