Comments	<input type="text" value="- detrimental impact on the local environment
- development of countryside that would change the character of the area
- development is already the other side of the motorway, both Banbury side and as you exit the motorway heading south. These large warehouses should be consolidated not spread to another side
- highway safety is comprised, road is already in disrepair and very narrow which will only get worse
- traffic volume, there are already issues within the area and multiple crashes through our own fence
- Impact on the side of Banbury over the bridge, currently no space for cyclists, even two large lorries would struggle to pass easily.
- public services are not available currently so this would be a complete development and impact the local flora and fauna.
- adverse impact on protecting trees"/>
