Subject: RE: Planning notification for application reference: 23/03508/DISC

Emma,

The applicant has submitted a post excavation assessment for the archaeological investigations on this site. This assessment has been agreed with OCAS and sets out the work that will be required to be undertaken to produce a suitable report and archive of these investigations as set out in the agreed WSI.

This assessment however is not the final report specified in condition 9b and as such this condition should not be fully discharged at this stage.

Whilst we would have no objection to Cherwell confirming the partial discharge of this condition it should be highlighted that this condition would not have been fully met until such time as the post excavation work, detailed in this post excavation assessment, is undertaken, an archive produced and the final publication of the report as set out in the agreed WSI.

Regards

Richard
