<b>Comments</b>	<p>Regarding the above application, the LEMP provided by Cotswold Wildlife Surveys in January 2019 is sufficient to discharge condition 15. The LEMP provides details on tree protection methods, tree retention plans, landscaping design and planting specifications (including a variety of high nectar producing species which will benefit wildlife), and management and monitoring responsibilities. It also includes ecological constraints and considerations. The LEMP shall be carried out in accordance with the approved details.</p> <p>Kind Regards, Megan Belanger</p>
