Comments	<input type="text" value="I have only lived here for 3 months the road has flooded twice in that time the large area of hard standing to accommodate 12 mobile homes and 12 caravan's this will end's up as 24 dwellings plus access road and parking for all vehicles can only make matters worse. The large increase of road traffic will make a huge impact on these narrow roads grass verges are already being damaged by delivery vans this development can only make things worse and then you have to take into account the impact on the rare newts & other local wildlife, damage to their environment has already taken place on clearance of the site in breach of original planning. If planning is given will there be any restrictions on the total number of mobile homes allowed. As the wording of twelve families will make it possible to end up with far more homes on the site as the families grow along with numerous vehicles often large and heavy. This is also an area where residential development would otherwise not be allowed. The development isn't for the locals nor will it be. This one development increases Piddington's dwellings by 16%"/>
