Comments	<input type="text" value="I strongly object to this planning application.
-None of the original 6 pitches have yet been erected. Is this as a result of the applicant starting work before completing pre-commencement condition and thus invalidating the existing planning.
-The location as has always been the case is not suitable for such a development. Piddington has no amenities, indeed all required amenities are in village further away requiring transport to access. No other such residential developments would be allowed in Piddington.
-The site is not suitable for residents having close proximity to MOD training ground. The development is purely speculative with no ties to the area
-The amenity itself would dominate the local community with Piddington being such a small village.
-The site is an important location for the endangered Great Crested Newts.
-Is there really such a need in this area. There is already
-Why is there no provision in the local plan for traveller sites . Surely the development of Gravenhill would be an excellent opportunity offering all amenities close by."/>
