Comments	<input type="text" value="The objections to this umpteenth planning application for this site remain the same - nothing has changed to improve this site as being suitable for people to live on. If anything, the site is even more inappropriate as now this site is adjacent to an industrial operation crushing concrete! The noise and the dust will be intolerable. The back of my property is probably a little under one mile and we can hear the crushing operation and when the wind is blowing in our direction - so comes the dust.

The Council cannot be party to granting permission for anyone to reside on this site. I, therefore, trust that the Council will do the right thing and refuse this permission as they have in the past."/>
