Comments	<input type="text" value="There seems so many reasons that this seems a bad idea. There are no services- water or electricity. This would create so much more traffic on narrow lane with no footpath or lighting.
It is so close to the cement batching plant, working 24 hours a day. Piddington is too small to cope with the excess of traffic through it.
Ecologically there are great crested newts present and no where for excess water to run off and a loss to protective agricultural land
Therefore The site will impact so heavily on the proposed land and also the lives of the villagers on a site that is so totally unsuitable in each aspect"/>
