Comments	<input type="text" value="The area that is proposed is not large enough to hold that many dwellings and associated traffic they would bring to the area.
Building on that body of land would also affect the balance pond that lies within that area, possibly leading to flooding of the immediate roads and housing nearby.
There are better places to build dwellings to the south of Bicester.
The building companies have no interest in the land or the areas they choose, they just want to get in and make money at the expense of the existing local residents quality of life."/>
