Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<p>I strongly object to this development for various reasons, all of which are based on being a local resident of Caversfield.</p> <p>1 - Caversfield is already being swallowed up by other developments. The Elmsbrooke Eco Town development on one side, and Bicester Heritage / Motion on the other side.</p> <p>2 - The roads are already very congested at peak times of the day either side of Caversfield. Another 90 + properties with the additional vehicles on the road is going to have yet further negative impact to residents and more importantly the environment.</p> <p>3 - Building 90 + properties on the proposed site will see the destruction of lovely green fields, home to many many wild animals.</p> <p>4 - Rain / storm water drainage. Global warming is causing more and more storms, which bring more and more torrential rain. How will a new concrete development improve flood risk? It won't, it will add to it.</p> <p>I really do ask that this proposal is rejected as Caversfield isn't an appropriate location for such development.</p>
