Comments	<input type="text" value="The application is a speculative proposal which varies little from the failed 2014 application submitted by CALA Homes. The CALA plan has been replicated in most respects except for the number of houses to be built. The Inspector's report, which rejected the application, remains valid in all respects. There is no justification for overturning his decision. Furthermore, the impact of housing development over the last 10 years, with little improvement in local services and infrastructure, makes this application even less desirable. I strongly object to the application."/>
