no

Are you wishing to carry out works to tree(s) in a conservation area?

yes

Do you know which TPO protects the tree(s)

not_applicable

Page: Identification of tree(s) and description of works

Please identify the trees

Remove the group of conifers on the corner of 1 Paynes End.

Crown thinning (20%), crown lifting not higher than a max of 2.5m. Further the crown Reduction of no more than 20%, also, reduction of Conifer and mixed species hedge in height and thickness of the group of conifers adjacent to the back fence of 1 Paynes End.

Remove single dying tree in 1 Paynes End back yard.

All areas of work identified on attached diagram.

All trees removed will be replaced within the MOD controlled area on a 1 for 1 ratio, with the exception of the conifers on the corner of 1 Paynes End as these cause a safety issue with line of sight hazard for road users. Also, the trees will be of a minimum of Feathered (1.2m) in height. All trees replanted will be of British Native species.

With reference to Forest Research Decision Support Tools Portal v2.0 (forestdss.org.uk) the tree species suitable for the location were identified. A selection of these will be used as the replacements.

Species were:

Ash, Grey Alder, Hornbeam and Small Leafed Lime.
