Comments	<p>The revision of the plans for cycle parking is a welcome improvement. However, there is no detail given for the cycle route from Gate 8 to the site, nor any detail of the "routes and loops" is given. This needs to be clarified by the applicant.</p> <p>With reference to the Transport Statement, we are very concerned that the arrangement described in section 4.7, the access labelled as 'B' of a pedestrian refuge for people walking, wheeling and cycling to cross the very busy A4421 is completely inadequate from the point of view of safety. In this context, the crossing should be controlled and signalised in accordance with LTN 1/20, and this must be revised by the applicant.</p>
